ABOUT LS TECHNICS

**Optimum logistics of components
and aircraft parts.
Perfect planning of maintenance
tasks.**

We are a member of the Polish Aviation Group:

We have our own Training Center PART-147

We support school students in gaining practical knowledge

We provide internships and apprenticeships for students of aviation technical schools and universities. We are looking for talents

We carry out open trainings in aviation industry

At our training center, we educate maintenance staff from around the world

Advanced knowledge and professional trainers

Our experts provide access to the latest knowledge and technology in aircraft maintenance

We are constantly extending competence of our staff

We continuously provide trainings according to Part-66 scope for our maintenance staff

Knowledge as a path to perfection

Our mission is to provide the highest quality services by implementing innovative solutions tailored to the needs of our clients.
We help you spread your wings.

MISSION

VISION

We are an organization in the aviation industry, which is characterized by an individual approach, flexibility and fast and effective operation anywhere in the world. This is what makes our offer stand out.

PEOPLE

- each of us has a significant contribution to the implementation of the mission and vision, which is why we focus on employee development, a good working atmosphere and the high culture of our organization. We work with passion.

COOPERATION

- we build lasting relationships based on trust, respect and clear communication. We are open to the needs of our clients and employees. We focus on credibility, friendliness and effectiveness.

SAFETY

- we constantly identify threats and reduce risks. This applies to every area of the company's operation.

RESPONSIBILITY

- we are aware of our impact on the environment - in particular on our customers, partners, employees and the natural environment, therefore we operate reliably, honestly and transparently.

DEVELOPMENT

- we are constantly improving and developing the entire organization, including competences, processes and infrastructure. We implement innovative solutions.

We meet the standards of aviation market supervision of various countries (EU, UK, USA)
